    Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215

## SUBJECT INDEX

- Acidity  
Acid-base properties of modified  $\gamma$ -alumina 1
- Adsorption  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Adsorption  
Kinetics of decomposition of methyl tert-butyl ether in the gas phase on Amberlyst 15 as a catalyst 341
- Ageing  
Supported molybdenum catalysts for alcohol synthesis from  $\text{CO-H}_2$  77
- Ageing  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153
- Ageing  
Conditioning of  $\gamma\text{-Al}_2\text{O}_3$  catalyst in the transfer hydrogenation of 4-tert-butylcyclohexanone by 2-propanol 189
- Ageing  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Ageing  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Alcohol synthesis  
Supported molybdenum catalysts for alcohol synthesis from  $\text{CO-H}_2$  77
- Alcohol synthesis  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Alumina  
Acid-base properties of modified  $\gamma$ -alumina 1
- Alumina  
Conditioning of  $\gamma\text{-Al}_2\text{O}_3$  catalyst in the transfer hydrogenation of 4-tert-butylcyclohexanone by 2-propanol 189
- Alumina  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. I: Kinetic data 225
- Alumina  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. II: Kinetic model and interpretation 239
- Amberlyst 15  
Kinetics of decomposition of methyl tert-butyl ether in the gas phase on Amberlyst 15 as a catalyst 341
- Ammonoxidation  
The mechanisms of the ammonoxidations of propene and isobutene to pyridines over mixed Sn-Sb-Te oxide catalysts 135
- Basicity  
Acid-base properties of modified  $\gamma$ -alumina 1
- Benzene hydrogenation  
Fast gas-phase micro-test under high pressure using a quartz-lined tubular reactor. Effect of sulphidation mode on activity of an Ni-Mo/ $\text{Al}_2\text{O}_3$  catalyst 181
- Butane conversion  
Maleic anhydride conversion by V-P-O catalysts 39
- Carbon monoxide hydrogenation  
Supported molybdenum catalysts for alcohol synthesis from  $\text{CO-H}_2$  77
- Carbon monoxide hydrogenation  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Carbonyl group hydrogenation  
Conditioning of  $\gamma\text{-Al}_2\text{O}_3$  catalyst in the transfer hydrogenation of 4-tert-butylcyclohexanone by 2-propanol 189
- Catalyst characterization  
Acid-base properties of modified  $\gamma$ -alumina 1
- Catalyst characterization  
Synthesis of olefins from methanol on alumina-supported  $\text{H}[\text{SiW}_{12}\text{O}_{40}]$  catalysts 23
- Catalyst characterization  
Study of the interaction between nitric oxide and carbon monoxide over  $\text{Co}_3\text{O}_4$  and

- $\text{Cu Co}_{3-x}\text{O}_4$  catalysts using the transient response method 49  
 Catalyst characterization  
   Surface state and activity of  $\text{CuCo}_2\text{O}_4$  during the reduction of nitric oxide with carbon monoxide 65  
 Catalyst characterization  
   Supported molybdenum catalysts for alcohol synthesis from  $\text{CO-H}_2$  77  
 Catalyst characterization  
   Simulated regeneration of an industrial  $\text{CoMo}/\gamma\text{-Al}_2\text{O}_3$  catalyst. Influence of the regeneration temperature 89  
 Catalyst characterization  
   Conversion of methane-ethylene mixtures over sulphate-treated zirconia catalysts 109  
 Catalyst characterization  
   Activity, FTIR studies and catalyst characterization during methane steam reforming on  $\text{Ni}/\text{Y-zeolite}$  catalysts 119  
 Catalyst characterization  
   The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed  $\text{Sn-Sb-Te}$  oxide catalysts 135  
 Catalyst characterization  
   Fast gas-phase micro-test under high pressure using a quartz-lined tubular reactor. Effect of sulphidation mode on activity of an  $\text{Ni-Mo}/\text{Al}_2\text{O}_3$  catalyst 181  
 Catalyst characterization  
   Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255  
 Catalyst characterization  
   Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and hydrogen sulphide under different temperature regimes 263  
 Catalyst characterization  
   High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275  
 Catalyst characterization  
   Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289  
 Catalyst characterization  
   The influence of hydrogen treatment and catalyst morphology on the interaction of oxygen with a silver catalyst 329  
 Catalyst preparation  
   Synthesis of olefins from methanol on  $\text{SiO}_2$  supported  $\text{Ag}_4(\text{SiW}_{12}\text{O}_{40})_2$  catalysts 13  
 Catalyst preparation  
   Synthesis of olefins from methanol on alumina-supported  $\text{H}_4[\text{SiW}_{12}\text{O}_{40}]$  catalysts 23  
 Catalyst preparation  
   Activity, FTIR studies and catalyst characterization during methane steam reforming on  $\text{Ni}/\text{Y-zeolite}$  catalysts 119  
 Catalyst preparation  
   The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed  $\text{Sn-Sb-Te}$  oxide catalysts 135  
 Catalyst preparation  
   Ethylene from ethanol over zeolite catalysts 163  
 Catalyst preparation  
   The effect of catalyst preparation conditions on the morphology of  $\text{MgO}$  catalyst supports 199  
 Catalyst preparation  
   Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255  
 Catalyst preparation  
   High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275  
 Catalyst preparation  
   Ruthenium promoted hydrodenitrogenation catalysts 311  
 Chromia/alumina  
   Acid-base properties of modified  $\gamma$ -alumina 1  
 Cobalt oxide  
   Study of the interaction between nitric oxide and carbon monoxide over  $\text{Co}_3\text{O}_4$  and  $\text{Cu Co}_{3-x}\text{O}_4$  catalysts using the transient response method 49  
 Cobalt-molybdenum/alumina  
   Simulated regeneration of an industrial  $\text{CoMo}/\gamma\text{-Al}_2\text{O}_3$  catalyst. Influence of the regeneration temperature 89  
 Cobalt-molybdenum/alumina  
   Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215  
 Cobalt-molybdenum/alumina  
   Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and

- hydrogen sulphide under different temperature regimes 263
- Cobalt-molybdenum/alumina  
Ruthenium promoted  
hydrodenitrogenation catalysts 311
- Coke formation  
Synthesis of olefins from methanol on  $\text{SiO}_2$  supported  $\text{Ag}_4(\text{SiW}_{12}\text{O}_{40})$  catalysts 13
- Coke formation  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153
- Combustion  
Maleic anhydride conversion by V-P-O catalysts 39
- Copper-cobalt oxide  
Study of the interaction between nitric oxide and carbon monoxide over  $\text{Co}_3\text{O}_4$  and  $\text{Cu}_2\text{Co}_3\text{O}_4$  catalysts using the transient response method 49
- Copper-cobalt oxide  
Surface state and activity of  $\text{CuCo}_2\text{O}_4$  during the reduction of nitric oxide with carbon monoxide 65
- Cracking  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153
- Cyclohexene hydrogenation  
Simulated regeneration of an industrial  $\text{CoMo}/\gamma\text{-Al}_2\text{O}_3$  catalyst. Influence of the regeneration temperature 89
- Cyclohexene isomerization  
Acid-base properties of modified  $\gamma$ -alumina 1
- Dehydration  
Ethylene from ethanol over zeolite catalysts 163
- Dehydrogenation  
The influence of hydrogen treatment and catalyst morphology on the interaction of oxygen with a silver catalyst 329
- Ethanol dehydration  
Ethylene from ethanol over zeolite catalysts 163
- Ethylene hydrogenation  
Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and hydrogen sulphide under different temperature regimes 263
- Heptane transformation  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Hexene cracking  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153
- Hexene oligomerization  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153
- Hydration  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Hydrocracking  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Hydrodenitrogenation  
Ruthenium promoted  
hydrodenitrogenation catalysts 311
- Hydrodeoxygenation  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Hydrogenation  
Supported molybdenum catalysts for alcohol synthesis from  $\text{CO-H}_2$  77
- Hydrogenation  
Fast gas-phase micro-test under high pressure using a quartz-lined tubular reactor. Effect of sulphidation mode on activity of an  $\text{Ni-Mo}/\text{Al}_2\text{O}_3$  catalyst 181
- Hydrogenation  
Conditioning of  $\gamma\text{-Al}_2\text{O}_3$  catalyst in the transfer hydrogenation of 4-tert-butylcyclohexanone by 2-propanol 189
- Hydrogenation  
Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255
- Hydrogenation  
Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and hydrogen sulphide under different temperature regimes 263

- Hydrogenation  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Hydrogenolysis  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Hydroisomerization  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Hydrotreating catalyst  
Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and hydrogen sulphide under different temperature regimes 263
- Hydrotreating catalysts  
Simulated regeneration of an industrial CoMo/Y-Al<sub>2</sub>O<sub>3</sub> catalyst. Influence of the regeneration temperature 89
- Hydrotreating catalysts  
Ruthenium promoted hydrodenitrogenation catalysts 311
- Iron oxide/alumina  
Acid-base properties of modified γ-alumina 1
- Isobutene ammoxidation  
The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed Sn-Sb-Te oxide catalysts 135
- Isomerization  
Acid-base properties of modified γ-alumina 1
- Kinetics  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. I: Kinetic data 225
- Kinetics  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. II: Kinetic model and interpretation 239
- Kinetics  
Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and hydrogen sulphide under different temperature regimes 263
- Kinetics  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Kinetics  
Ruthenium promoted hydrodenitrogenation catalysts 311
- Kinetics  
Vapour phase oxidation of 2,6-lutidine to 2,6-pyridinedicarboxaldehyde. III. Kinetic study 317
- Kinetics  
Kinetics of decomposition of methyl tert-butyl ether in the gas phase on Amberlyst 15 as a catalyst 341
- Lutidine oxidation  
Vapour phase oxidation of 2,6-lutidine to 2,6-pyridinedicarboxaldehyde. III. Kinetic study 317
- Lutidine poisoning  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Magnesia/alumina  
Acid-base properties of modified γ-alumina 1
- Maleic anhydride  
Maleic anhydride conversion by V-P-O catalysts 39
- Manganese  
Ethylene from ethanol over zeolite catalysts 163
- Methane reforming  
Activity, FTIR studies and catalyst characterization during methane steam reforming on Ni/Y-zeolite catalysts 119
- Methane-ethylene conversion  
Conversion of methane-ethylene mixtures over sulphate-treated zirconia catalysts 109
- Methanol conversion  
Synthesis of olefins from methanol on SiO<sub>2</sub> supported Ag<sub>4</sub> (SiW<sub>12</sub>O<sub>40</sub>) catalysts 13
- Methanol conversion  
Synthesis of olefins from methanol on alumina-supported H<sub>4</sub>[SiW<sub>12</sub>O<sub>40</sub>] catalysts 23
- Methanol dehydrogenation  
The influence of hydrogen treatment and catalyst morphology on the interaction of oxygen with a silver catalyst 329
- Methyl tert-butyl ether decomposition  
Kinetics of decomposition of methyl tert-butyl ether in the

- gas phase on Amberlyst 15 as a catalyst 341
- Methylfuran hydrodeoxygenation  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Methylthiophene hydrodeoxygenation  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Molybdena/alumina  
Acid-base properties of modified  $\gamma$ -alumina 1
- Molybdenum  
Supported molybdenum catalysts for alcohol synthesis from  $\text{CO-H}_2$  77
- Nickel oxide/alumina  
Acid-base properties of modified  $\gamma$ -alumina 1
- Nickel-molybdenum/alumina  
Fast gas-phase micro-test under high pressure using a quartz-lined tubular reactor. Effect of sulphidation mode on activity of an  $\text{Ni-Mo/Al}_2\text{O}_3$  catalyst 181
- Nickel/zeolite  
Activity, FTIR studies and catalyst characterization during methane steam reforming on  $\text{Ni/Y-zeolite}$  catalysts 119
- Nitric oxide reduction  
Study of the interaction between nitric oxide and carbon monoxide over  $\text{Co}_3\text{O}_4$  and  $\text{Cu}_x\text{Co}_{3-x}\text{O}_4$  catalysts using the transient response method 49
- Nitric oxide reduction  
Surface state and activity of  $\text{CuCo}_2\text{O}_4$  during the reduction of nitric oxide with carbon monoxide 65
- Olefin hydration  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Olefin hydrogenation  
Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255
- Oxidation  
Vapour phase oxidation of 2,6-lutidine to 2,6-pyridinedicarboxaldehyde. III. Kinetic study 317
- Particle size  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Piperidine poisoning  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Platinum/zeolite  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Poisoning  
Poisoning of 2-methylthiophene and 2-methylfuran hydrogenolysis by piperidine and 2,6-lutidine 215
- Poly(styrene-divinyl benzene)  
Kinetics of decomposition of methyl tert-butyl ether in the gas phase on Amberlyst 15 as a catalyst 341
- Propene ammoxidation  
The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed Sn-Sb-Te oxide catalysts 135
- Proton-exchanged zeolites  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Reaction mechanism  
Synthesis of olefins from methanol on alumina-supported  $\text{H}_4[\text{SiW}_{12}\text{O}_{40}]$  catalysts 23
- Reaction mechanisms  
The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed Sn-Sb-Te oxide catalysts 135
- Reduction  
Study of the interaction between nitric oxide and carbon monoxide over  $\text{Co}_3\text{O}_4$  and  $\text{Cu}_x\text{Co}_{3-x}\text{O}_4$  catalysts using the transient response method 49
- Reduction  
Surface state and activity of  $\text{CuCo}_2\text{O}_4$  during the reduction of nitric oxide with carbon monoxide 65
- Regeneration  
Simulated regeneration of an industrial  $\text{CoMo/Y-Al}_2\text{O}_3$  catalyst. Influence of the regeneration temperature 89
- Regeneration  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153

- Rhodium/lanthana  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Rhodium/silica  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Ruthenium-cobalt-molybdenum/alumina  
Ruthenium promoted hydrodenitrogenation catalysts 311
- Ruthenium/hectorite  
Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255
- Ruthenium/magnesia  
The effect of catalyst preparation conditions on the morphology of MgO catalyst supports 199
- Selectivity  
Synthesis of olefins from methanol on SiO<sub>2</sub> supported Ag<sub>4</sub> (SiW<sub>12</sub>O<sub>40</sub>) catalysts 13
- Selectivity  
Synthesis of olefins from methanol on alumina-supported H<sub>4</sub>[SiW<sub>12</sub>O<sub>40</sub>] catalysts 23
- Selectivity  
Maleic anhydride conversion by V-P-O catalysts 39
- Selectivity  
Supported molybdenum catalysts for alcohol synthesis from CO-H<sub>2</sub> 77
- Selectivity  
The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed Sn-Sb-Te oxide catalysts 135
- Selectivity  
Ethylene from ethanol over zeolite catalysts 163
- Selectivity  
Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255
- Selectivity  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Selectivity  
Influence of particle size on carbon monoxide hydrogenation over silica- and lanthana-supported rhodium 289
- Selectivity  
Ruthenium promoted hydrodenitrogenation catalysts 311
- Selectivity  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Silver  
The influence of hydrogen treatment and catalyst morphology on the interaction of oxygen with a silver catalyst 329
- Silver-dodecatungstosilicate/Aerosil  
Synthesis of olefins from methanol on SiO<sub>2</sub> supported Ag<sub>4</sub> (SiW<sub>12</sub>O<sub>40</sub>) catalysts 13
- Silver-dodecatungstosilicate/alumina  
Synthesis of olefins from methanol on alumina-supported H<sub>4</sub>[SiW<sub>12</sub>O<sub>40</sub>] catalysts 23
- Sintering  
The effect of catalyst preparation conditions on the morphology of MgO catalyst supports 199
- Sintering  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. I: Kinetic data 225
- Sintering  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. II: Kinetic model and interpretation 239
- Spinel catalysts  
Study of the interaction between nitric oxide and carbon monoxide over Co<sub>3</sub>O<sub>4</sub> and Cu Co<sub>3-x</sub>O<sub>4</sub> catalysts using the transient response method 49
- Spinel catalysts  
Surface state and activity of CuCo<sub>2</sub>O<sub>4</sub> during the reduction of nitric oxide with carbon monoxide 65
- Steam reforming  
Activity, FTIR studies and catalyst characterization during methane steam reforming on Ni/Y-zeolite catalysts 119
- Sulphate  
Conversion of methane-ethylene mixtures over sulphate-treated zirconia catalysts 109

- Sulphidation**  
Fast gas-phase micro-test under high pressure using a quartz-lined tubular reactor. Effect of sulphidation mode on activity of an Ni-Mo/ $\text{Al}_2\text{O}_3$  catalyst 181
- Superacids**  
Conversion of methane-ethylene mixtures over sulphate-treated zirconia catalysts 109
- Temperature programmed desorption**  
Shape selective hydrogenation by ruthenium-hectorite catalysts with various interlayer distances 255
- Temperature programmed reduction**  
The influence of hydrogen treatment and catalyst morphology on the interaction of oxygen with a silver catalyst 329
- Temperature-programmed reduction**  
Temperature-programmed reduction of a cobalt-molybdenum catalyst activated by hydrogen and hydrogen sulphide under different temperature regimes 263
- Thermal stability**  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. I: Kinetic data 225
- Thermal stability**  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. II: Kinetic model and interpretation 239
- Thiophene hydrodesulphurization**  
Simulated regeneration of an industrial CoMo/Y- $\text{Al}_2\text{O}_3$  catalyst. Influence of the regeneration temperature 89
- Tin-antimony-tellurium oxides**  
The mechanisms of the ammoxidations of propene and isobutene to pyridines over mixed Sn-Sb-Te oxide catalysts 135
- Transition alumina**  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. I: Kinetic data 225
- Transition alumina**  
Influence of surface area and additives on the thermal stability of transition alumina catalyst supports. II: Kinetic model and interpretation 239
- Vanadium-molybdena/alumina**  
Vapour phase oxidation of 2,6-lutidine to 2,6-pyridinedicarboxaldehyde. III. Kinetic study 317
- Vanadium-phosphorus-oxygen**  
Maleic anhydride conversion by V-P-O catalysts 39
- Zeolite**  
Ethylene from ethanol over zeolite catalysts 163
- Zeolites**  
Activity, FTIR studies and catalyst characterization during methane steam reforming on Ni/Y-zeolite catalysts 119
- Zeolites**  
A comparative study of reactivation of zeolite Y using oxygen and ozone/oxygen mixtures 153
- Zeolites**  
High pressure catalytic hydration of olefins over various proton-exchanged zeolites 275
- Zeolites**  
Hydroisomerization and hydrocracking of n-alkanes. 2. n-Heptane transformation on a Pt-dealuminated Y zeolite - comparison with a Pt-Y zeolite 353
- Zinc**  
Ethylene from ethanol over zeolite catalysts 163
- Zirconia**  
Conversion of methane-ethylene mixtures over sulphate-treated zirconia catalysts 109
